### DID YOU KNOW ????

Frank Winnold Prentice (Encyclopedia Titanica)  (1890-1982) [ancestry unknown], survivor of the *Titanic*. Born in Norfolk, England, on 12 February 1890. When he signed-on to the *Titanic*, on 4 April 1912, he gave his address as 71 Denzil Avenue, (Southampton). After jumping into the water, he found Lifeboat 4, the crew and women in the boat pulled him in. Shortly before his death on 19 May 1982 at the age of 92 Frank Prentice told his story in a British documentary *Titanic: A Question of Murder*.

### Sad to report:

*Mark and Dixie lost "Gabe" their cat and best friend for many years. Mark says, "He was my companion thru out the day and was always loyal and listened to me all day rattling on". They have a new friend from Dixie's work, from a person that moved to a nursing home and couldn't care for him anymore. He is a big cat too. His Name is Big Daddy like the Burl Ives part in "Cat on a hot tin roof".*

### "Prentice Stories"

Patti (Prentice) Schmidt says "How about having a section in the mailing of Prentice "stories." ? I've been trying to remember some of the ones I got told as a kid for years, I think it would even be fun to get different versions of the same story too.

**What do you guys think ? Have any Stories ?**
